THE LINE OF DUTY

Clearly Defined by Assistant Secretary Bussey.

VALUABLE INFORMATION FOR THOSE WHO SEEK PENSIONS.

A Case in Which Commissioner Black's Decision is Overruled and the Claimant's Name Placed on the Pension Rolls—Two Cases in Which He Refuses to Allow the the Claimants' Pension.

WASHINGTON, April 18.—Assistant Secretary Bussey Tuesday rendered three pension decisions in which is involved the important question of when may and when may not a soldier be considered in line of duty. The first case is that of W. H. Brokenshaw, late of Company H, Twenty-ninth Michigan volunteers, who applied for an invalid pension.

The Basis of the Claim.

The basis of his claim was an injury to the left side incurred in the service at Jackson, Mich., March 25, 1865, said injury having been "caused by three soldiers jumping on claimant while he was climbing into his bunk, crushing ribs of the left side below the heart." The claim was rejected by Commissioner Black upon the ground that "claimant was not injured in the line of duty."

Bussey, in his decision, overruled the former decision, and directs that Brokenshaw's name be placed upon the pension rolls, rating his disability in accordance with law.

The Line of Duty Defined.

He says: "In the original Ammerman decision (recently reversed, as in the preceding case of Harrington), the department declined to recognize the doctrine of contributory negligence as an element in the line of duty, and failed, therefore, to notice either the guiltiness or the innocence of the injured party. It is an immemorial and true doctrine of the common law that 'the plaintiff has no remedy if his negligence in any degree contributed to the accident' of which he complains and whereby he suffered injury; but the converse of this doctrine is equally true, viz.: that if the negligence of the other party was the sole proximate cause of the injury, then the injured party may recover."

"As now correctly held by the department, Ammerman was in his proper place, ready to perform such duty as he might be called upon to do, and was guilty of no act contributory to it, inasmuch as 'the injury alleged as the ground of pension happened to him without any fault or neglect on his part,' and hence he was entitled to a remedy for the result. That which, in this particular, was true of Ammerman seems to have been true, with increased emphasis, of Brokenshaw, the claimant in the pending motion. Brokenshaw was clearly in the line of duty—not passive only, but active duty—inasmuch as he was in the act of 'climbing into his bunk,' the place of customary rest, which it was his duty to use, and which was provided for him by the regulations of the service when he received the alleged injury; the said injury, though not a necessary result, was, as to claimant, an unavoidable incident of the service, it having been caused, without provocation on his part, by 'three soldiers, names unknown, jumping on him while he was climbing into his bunk.' He was thus in no degree a contributor to his own injury, but was merely the helpless recipient of an irresistible assault. His title to remedy is plain; but it does not lie against his assailants. It lies in the system of pension provided for disabilities incurred in the service and line of duty. He was 'in his proper place, ready to perform such duty as he might be called upon to do,' and the injury alleged as the ground of pension happened to him 'without any fault or neglect on his part.' The doctrine which the department now avows is a fundamental rule of justice, and the application of it to the claimant in this, as in all similar cases, seems to be required by the true spirit and intent of the pension system."

Not in the Line of Duty.

Another case is that of C. H. Sedgwick, late midshipman United States steamer Santee and United States steamer Constitution. Claimant in this case was injured by a kick from a comrade on board ship. He was at the time, to use his own language, "biting and teasing" his comrade, who becoming incensed thereat, administered to him the kick from which his disability resulted. The assistant secretary in this case sustained a former decision rejecting the application, and adds: "Here it is apparent that the claimant not only contributed directly to produce the cause of his injury, but that he was engaged at the time in a manner that was manifestly in violation of the rules and regulations of the service and subversive of discipline and good order, and the injury resulting from such conduct on his part was unquestionably not incurred in line of duty."

The Former Decision Adhered To.

The third case is that of Elizabeth Hull, widow of William Hull, a soldier who died in a military prison at Nashville, Tenn., of inflammation of the pleura, contracted in the prison. The soldier, it appears from the evidence, was arrested and confined in the prison for being absent from his company and regiment without permission. In this case Mr. Bussey says: "To entitle a widow to a pension, the wound, the injury, or the disease which caused the husband's death must have been connected, as a result, with the compliance by him with the requirements of military duty. Such connection between the fatal disease and the service did not exist in this case." The former decision is adhered to.

Love Sick Young Man Suicides. VALPARAISO, Ind., April 15.—Albion Skinner, a well known young man of this

city, committed suicide late Monday night at the home of a young lady with whom he was spending the evening, just north of the city. He had proposed to her several weeks since, and she had not given him an answer. Monday night he insisted upon her decision, and, because she would not answer, remarked that life had no charms for him, and placed a revolver to his head and fired into his brain. Death resulted instantly.

SWELLING DAILY.

The Crowd Around Oklahoma—Destitution at Some Places—Numerous Post-offices to Be Established.

CALDWELL, Kan., April 18.—The Oklahoma boomers arriving on the Kansas border are swelling in number and enthusiasm every day. Caldwell is on a sympathetic boom. Arkansas City, thirty miles east of here, is also atop the tidal wave of prosperity.

The Boomers' Camps. The green prairie hillside about Caldwell are dotted with white-capped wagons and little tents. Scattered about on the turf are old stoves, dirty children, enervated mothers, begrimed male pipe smokers and numerous sick horses and cows. Many of the boomers are well supplied with live stock, but there is a respectable minority so wretchedly poor they will be hardly able to pay their \$17 land entry fees in Oklahoma, and will soon be obliged to sell out their rights for a little ready money to move on. They are never-do-wells of the tramp genus, and have gathered from all parts of the compass like flies attracted by sweetened paper.

Colonies Traveling South. Most of the campers about Caldwell are a somewhat better class than the notorious old time boomers, who are now largely concentrated in the Chickasaw nation awaiting the opening of Oklahoma, and will try to rush in ahead of outsiders.

Colonies of good citizens organized in Kansas, Iowa, Missouri and other states are now traveling south on wagons and trains. A colony of 200 has reached Wichita en route to this point.

Will Defend Themselves.

Every day witnesses large accessions to the waiting invaders massed on the four sides of Oklahoma and still the rush continues to increase. A significant fact is the brisk demand in towns for guns and revolvers. The settlers are going armed and prepared to defend choice tracts of land at the hollow end of their rifles. There will be from 30,000 to 40,000 determined men seeking footholds upon 10,000 homesteads, of which only about 6,000 are really desirable land. The balance is black jack and scrub oak land, bluffs and ravines. There will be numerous duels and bloody tragedies. Persons who would keep out of danger in Oklahoma on April 23, will not take any land.

Driven Out.

Tuesday twenty farmers and ten teams were captured by troops twenty-eight miles south of the Kansas line, going Oklahoma-ward. Five, who had a military permit to remove wire fence, were allowed to go; but their neighbors, who had sneaked along by collusion with the permit of the five, were forced to run, humiliated, to Caldwell. If the troops can prevent it, no liquor will be allowed to enter Oklahoma across the prohibition Indian territory. Boomers massed on the Kansas border move forward with troops across the Cherokee line, next Friday ten miles to the Oklahoma line.

The Grand Rush.

Precisely at noon, Monday, April 22, the signal will be given and our better-skilled free-for-all will take place into the land of milk and honey. The settlers under their wild west felt hats will spur forward on the fastest horses.

In a Desperate Condition.

Boomers south of the Canadian river are in a desperate and deplorable condition; sickness and destitution are widespread, and hundreds of men women and children are in pitiable plight. They are scantily clothed, have scarcely enough food, and are practically helpless. Many have either mortgaged or pawned their camp outfit and personal effects during the months of waiting, until about all they have left is a Winchester rifle and a supply of ammunition.

Postoffices to Be Established.

WASHINGTON, April 18.—In view of the large immigration from the surrounding states into Oklahoma territory which will be opened to settlement on April 22, First Assistant Postmaster General Clarkson has arranged for their accommodation by following up as speedily as possible the establishment of postoffices along the routes of the several railroads which penetrate the territory.

He has also arranged with Second Assistant Postmaster General Whitfield for the establishment of star routes from the principal points of the several railroads to penetrate the interior, and along these star routes he will establish postoffices as the needs of population increase. There are now but three postoffices in the territory.

Will Be a State in Two Years.

Assistant Postmaster General Clarkson says that within three months there will be 100 fourth class postoffices established there, and that he proposes as far as he is able to follow up the progress of immigration with a speedy and prompt delivery of the mails. In his opinion in less than six months there will be 100,000 people located in Oklahoma. He pronounces it, after thorough travel from one end to the other, the garden spot of the west, and predicts that in less than two years it will be admitted into the Union as a state.

PHILADELPHIA, April 18.—Dr. Samuel W. Gross, son of the renowned surgeon, the late Samuel D. Gross, died Tuesday. He was born in Cincinnati, Feb. 4, 1837, and received his early education at Shelby college, in Kentucky. In 1879 Dr. Gross married Miss Grace Revere, of Boston, a lineal descendant of Paul Revere. They have no children.

Franz Steg Resigns.

NEW YORK, April 18.—Gen. Franz Sigel has resigned the office of pension agent at New York. Before doing so he received assurance that there were no charges against his office growing out of his son's illegal acts. The general is 65 years old, and was much broken down by his son's disgrace.

WASHINGTON.

Civil Service in the Railway Mail Service.

HARRISON SAYS HIS PARTY'S PROMISES MUST BE FULFILLED.

Fourth Class Postmasters Being Changed at the Rate of One Hundred Per Day. Changes in the Railway Mail Service. Lacy, of Michigan, Now Comptroller of the Currency.

NEW YORK, April 18.—A Washington special to The Herald says: The president made a declaration Tuesday which indicates that he has not forgotten the civil service reform plank in the National Republican platform. A delegation consisting of several members of congress waited on him to ask a further postponement of the application of the civil service rules to the railway mail service.

The president replied that it could not be done. The first postponement from March 15 to May 1, he said, had been made because of the inability of the civil service commission to prepare eligible lists by the earlier date, but there was no excuse for any further postponement, and none would be made. "We should be disregarding the pledges made to the country," said Gen. Harrison, "if we did that."

Making Changes.

First Assistant Postmaster General Clarkson says that he is making about 100 changes per day in fourth-class postmasters. About two-thirds of these changes are being made for cause, and about one-half of the remainder because of changes in sites of postoffices. About fifty changes per day are being made in the railway mail service, most of them for cause.

Appointments.

WASHINGTON, April 18.—The president made the following appointments Tuesday: William P. Hepburn, of Iowa, to be solicitor of the treasury; William H. Whiteman, of New Mexico, associate justice of the supreme court of the territory of New Mexico; James A. Sexton, to be postmaster at Chicago.

The following appointments were made Wednesday: Robert P. Porter, of New York, to be superintendent of census.

J. W. Cunningham to be assayer United States mint at Boise City, Idaho.

William H. Perkins, to be associate justice of the supreme court of Washington territory.

John B. Donnelly, of Louisiana, to be marshal for the eastern district of Louisiana.

Death of Mrs. Febiger.

WASHINGTON, April 18.—The wife of Rear Admiral Febiger, who was so seriously injured by being thrown from her carriage while the horses were running away, on Sunday afternoon, has died at her residence in this city. Mrs. Febiger never recovered consciousness from the time she was injured. Her skull was fractured and her arm broken in two places. The funeral will take place Friday afternoon, and the interment will be at Mount Olivet cemetery.

Sentence Commuted.

WASHINGTON, April 18.—The president has commuted the sentence of six months' confinement in the Louisville, Ky., jail, imposed on J. W. Flanagan, who was convicted in February last of violating the internal revenue laws, to three months, on account of the convict's poor health.

Comptroller of the Currency.

WASHINGTON, April 18.—E. C. Lacey, of Michigan, has been appointed comptroller of the currency.

YOKOHOMA AND HONG KONG.

Latest Chinese and Japanese Advice as Received by Steamer.

SAN FRANCISCO, April 18.—The steamer Oceanic, which has arrived from Yokohoma and Hong Kong, brings Chinese and Japanese advice to April 1.

The Japanese paper, Nichi Nichi Shinbun, publishes the following telegram from Seoul, Korea, dated March 22: "O. N. Donny, adviser to the Korean king, having received \$30,000 from H. Hung Chang, has decided to resign his post and return home."

The news that the United States has agreed to revise the treaty with Japan on the lines desired by the latter power, is receiving extended notice from the leading Japanese papers.

Mainide Shimibun states that America is the first among western powers to treat with Japan with friendliness. America has helped Korea to achieve her independence; has interfered between Germany and helpless Samoa, and America among all treaty powers, alone has returned her share of Themonascki indemnity to Japan.

The article declares that this last act on America's part is a worthy and fitting sequel to consistently friendly proceedings.

Fraudulent Drafts Afloat.

NEW YORK, April 18.—The following statement has been received by the United Press by Secretary Greene, of the American Bankers' association:

"A fraudulent draft was presented to the Chase National bank on April 15. It is printed in imitation of the forms used by the First National bank of Lima, O., though differing in some points. It was drawn to the order of H. C. Ransom and signed by John W. Hoyt, cashier. The real cashier of the Lima bank is C. M. Hughes, Jr. This looks as if some one has had the form lithographed, and is endeavoring to have the manufactured drafts negotiated as opportunity offers. They are probably more dangerous to hotels and individuals than to banks."

SPRINGFIELD, O., April 18.—Part of the new \$225,000 city building will have to be torn down and rebuilt owing to defective construction. The building is one of the finest of the kind in the country. The defect will cost about \$5,000.

FIRE RECORD.

Ferry-boat Burned at Jersey City—Big Blaze in New York City.

NEW YORK, April 18.—The ferry-boat New Brunswick, of the Pennsylvania Railroad company, caught fire at noon when near her dock in Jersey City. The flames spread to every part of the boat and it was burned almost to the water's edge.

The passengers became panic-stricken, but all were safely landed, although it was with the greatest difficulty that the pilots got the boat into her slip.

The New Brunswick was just leaving her slip when the fire occurred. It started in the engine room. The loss on the boat is \$115,000. Three teams and trucks were burned.

Sash and Door Factory.

NEW YORK, April 18.—The Buffalo Sash and Door factory, at One Hundred and Twenty-fourth street and Ninth avenue, was burned late Tuesday night. The loss of the concern is placed by the police at \$100,000 and is covered by insurance. Over 100 telegraph wires which were run on poles in front of the building were snapped by the heat.

A row of buildings in course of erection also caught fire, but were extinguished with but little damage. A wooden tenement, which stood a few yards from the burning building, was demolished by one of the walls falling upon it, the family having only vacated it a few minutes before. The night watchman of the factory is missing, but it is not thought he is in the ruins.

The Dakota Prairie Fires.

MINNEAPOLIS, Minn., April 18.—The Rev. H. W. Gleason, who went to Dakota last week to investigate the losses and sufferings from the recent prairie fires, returned to the city Tuesday. The accounts of the losses have, in Mr. Gleason's view, been exaggerated, but as to particular places the half has not been told.

He estimates that not more than twenty-five people lost their lives, though many are still sick from burns and exposure, and some may die. Cash remittances are no longer needed, but supplies of all kinds can be utilized in almost any quantity; lumber, seed grain, and agricultural implements being most in demand.

OHIO OIL FIELDS

Gobbled by the Standard People—Lima to Be Made Headquarters.

LIMA, O., April 18.—The Standard Oil company has gobbled the Ohio oil fields, and it has done it in a characteristic way. When the Ohio oil began to assume prominence mysterious reports were circulated that it was not refinable, and was of very inferior quality, being capable of giving a poor light at the best.

The Standard forced the prices of Lima oil from sixty to fifteen cents per barrel, which barely covered the cost of production, and, of course, the Ohio people were frozen out. Then the Standard came in and bought the oil wells, together with many acres of land, where wells had not yet been sunk, and when this was done it was discovered that the Lima oil was capable of being refined so that it compared favorably with that from the Pennsylvania wells.

The Standard has accumulated 15,000,000 barrels of this oil, and will again open up the Ohio wells and work them to their full capacity. The fields acquired by the Standard include about 13,000 acres, worth many millions of dollars, the price paid by the company being not much in excess of \$1,000,000.

The largest refinery in the world is about to be erected in Lima and a pipe line is connected at Cuyahoga, Wood county, O., with Beaver, Penn., where it will connect with the leading refineries in the east. This latest deal of the Standard is a mammoth and surpasses any previous one made by this unscrupulous corporation.

VALUABLE RELICS.

A Collection Such as May Never Be Brought Together Again.

NEW YORK, April 18.—The loan exhibition of historical portraits and relics, and which was in reality the opening gun of the Washington centennial celebration was formally opened in the assembly room of the Metropolitan opera house by Mayor Grant. A distinguished gathering had been invited to participate.

The collection itself is one of the most remarkable ever seen in the country, and it is a question whether its counterpart will ever be seen again. Of paintings and portraits of the "Immortal George" and prominent patriots of his day there are over 100, and the busts count up as many more.

Closely guarded in a case is the Washington family plate, and near by the dress swords of Washington and Chief Justice Jay, and the suit of clothes worn by President Washington at his inauguration. Near by is Martha Washington's Bible, the general's snuff box, his own copy of the acts of congress passed during his administration and the desk upon which The Federalist was written. Across the room and also under glass are Gouverneur Morris' dressing case, the wooden leg he wore in Paris during the revolution, the court dresses worn by John Adams, Governor Clinton's shoe buckles, Washington's silver spoons, presented to his wife upon their marriage, and innumerable autograph letters, and documents of various kinds. The rooms will be guarded night and day and elaborate precautions against fire have been taken.

Accident in a Sawmill.

TIPTON, Ind., April 18.—A frightful accident occurred near Windfall, this county, Monday evening, in which Josh Coons, a mill hand, lost his life. He was running the edging saw in B. F. Genford's mill, and while attempting to cross the carriage he slipped and fell on the large saw. The saw struck just below the hip, penetrating the right side and passing through the body to the head. None of his limbs were severed from the body, but he was sawed through from the hips to the lower base of his skull. He leaves a widow and children.

A West Point Elopement.

NEWBURGH, N. Y., April 18.—West Point is all torn up over an elopement, the principals being Thomas McGrath, a good-looking soldier at the post, and Julia Mahar, the wife of Timothy Mahar, of the artillery detachment.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
 Proprietors.

THURSDAY EVE, APRIL 18, 1890.

These are busy times with the candidates.

It's difficult matter to find a candidate who doesn't think he will "get there" in June.

If the fool-killer would wander out on the border of Oklahoma, he could find plenty to keep him busy for some time.

ELDER J. W. BULLOCK, of Germantown, has joined the throng of office-seekers, and announced himself as a candidate for Representative in Bracken County.

The Democratic and Republican nominees for Representative in the Nicholas-Robertson district are physicians, and the Prohibition nominee is studying medicine. This seems to be the doctors' year.

The Republicans in charge of the Pension Department are gradually opening the gates and letting down the bars, as will be seen by the news from Washington. But there will be no need of this after the next session of Congress.

The amount of British capital invested in foreign countries is estimated at twelve billion, five hundred million dollars, which leads the Louisville Times to remark that "free trade has made the beggarly little island the richest country in the world, collecting tribute 'from all quarters.'"

REPUBLICAN journals raised a great hue and cry over ex Secretary Bayard's policy in reference to the Samoan trouble, but they "ain't sayin a word now." Singular too, because Secretary Blaine, the brilliant statesman, is following in Bayard's steps in this matter. Perhaps, the Republicans have learned a thing or two from Cleveland's administration.

MAYSVILLE might learn a valuable lesson from Portsmouth. The Board of Trade of that city has effected a sale of 200 building lots at \$200 each, the proceeds to be used to aid in erecting "the following manufacturing establishments, to-wit: One stove foundry, employing one hundred hands; one brick (roller process) flouring mill, with a capacity of 150 barrels a day; one large grain elevator; one steel range works, employing from 30 to 50 men; and other manufacturing establishments, the character of which is undetermined, and employing from 50 to 100 men."

The people of Portsmouth are united and working with a will to build up their city and their work is telling.

Dr. John M. Frazee.

Mr. Editor: The selection by the County Committee of Saturday, June 8th, as the time to hold precinct meetings to select delegates to nominate the Democratic candidate for Representative warns us that it is time to consider the ability, as well as availability of some one to nominate.

The position being one of honor, and not profit, the field is not full of candidates and, as we have no general election this August, it behooves the Democracy to name a man who will poll the full strength of his party, and harmonize, rather than distract, it.

Many good names have been suggested, but none has met with more universal approval than that of Dr. John M. Frazee, of Maysville. His ability and popularity are unquestioned. His Democracy has the true ring and is genuine. He is not a "machine" politician; in fact, is not a politician at all. He belongs to no clique, ring or faction, and is alike popular with the "Kidds" and the "Mossbacks." Though frequently solicited to make the race, he has never consented, as he is above making an unseemly scramble for the nomination.

The citizens of the various precincts should insist that he, or some one similarly qualified, should make the race, as the welfare of the party demands such a candidate.

OUR NEIGHBORS.

MAYBLICK.

Mrs. B. F. Cliff, we are glad to know, is now improving slowly, but surely.

E. A. Piper and Joel Laytham had their imported Jack on exhibition last Saturday.

During the horse show last Saturday a dog was run over and killed, but it proved to be the wrong dog.

We are glad to learn that the chances are good for L. W. Galbraith a second term. He certainly is deserving.

J. A. Jackson left on the K. C. Monday morning and will be absent several days, visiting the city and other points.

We had a good horse show here last Saturday. Wm. McClelland's "Young Jackson" is one of the best saddle horses that we have seen.

E. M. Tuggle, candidate for County Assessor, and Thomas R. Phister, candidate for County Judge, were guests at the Stonewall House Saturday.

Professor Johnson returned from his visit to Bracken County last Sunday evening, ready for his work in the school room Monday morning.

MINERVA.

Mrs. C. A. Bradbury died last Thursday after an illness of two weeks. Her disease was typhoid fever. She was a young woman, having been married about five months, and was a true, good wife and mother.

Mourn not for her, the young bride of the vale.

Our sweetest and loveliest, lost to us now, Ere life's early lustre had time to grow pale, And the garland of love was yet fresh on her brow.

Oh, then was her moment, dear spirit, for flying From this gloomy world, while its gloom was unknown.

And the wild hymns she warbled so sweetly In dying, Were echoed in Heaven by lips like her own.

Weep not for her, in her spring time she flew To that land where the wings of the soul are untried; And now, like a star beyond evening's cold dew, Looks radiantly down on the tears of the world.

A FRIEND.

SHANNON.

Mr. Thomas B. Arthur is out every day buggy riding and enjoying spring, which is in glorious shape. He finished planting corn the first week in April. It is sprouted nicely.

Since the arrival of the new goods "Ship-Up" has put on her holiday attire, and the spacious store-room of N. & D. Watson is crowded with ladies from early morn till dewy eve, selecting their jaunty hats and pretty spring gowns.

Our old and valued friend, George W. Blatterman, was here the past week. He is an elegant and cultured gentleman, of first-class ability, fine scholarship and will be hard to down in his race for County Superintendent of Common Schools.

Mr. Henry Jefferson has sold his one-half interest in the Mt. Olivet and Maysville bus line for \$1,800 to Mr. Charles Tom Anderson. We welcome the coming and speed the parting proprietor and driver. Both are favorites with the traveling public.

Asa R. Burgess, of the Walker Warehouse, Cincinnati, was here Monday evening returning from Olivet where he had been making new friends on consignments. Asa has a big sunny heart, and favorably impresses his constituents. He invited his friends to meet him in banquet at the grand opening of the Walker House May 2nd.

Mr. John Sult, son of the late Thomas Sult, died at Sunday on Tuesday morning, April 16th. His remains were interred at Stanton Cemetery at 11 o'clock Wednesday, after an appropriate funeral service held at his late home by Rev. Dr. Anderson. He leaves a wife and two children—the older one, Carrie D., a little three-year-old of much sweetness and promise; the younger, born but a few hours before her father's death.

'Tis now the season of the year
 When by the sounding sea,
 The maiden walks and sings—
 "My love, he will return to me."
 Do you recognize the sonnet?
 Every word is fraught with pain,
 'Tis the song with whisksers on it—
 "When the robins nest again."

They will spend ten days or more in Covington with Mrs. Queen, and will then start for Wichita, Kansas, to visit their son and the grandchildren. After that they may go to Alaska or California or Europe, but they have decided upon no plans for the summer.

The Enquirer's Washington City correspondent says it is reported that Senator Beck, of Kentucky, will soon take unto himself another wife. The lady is Miss Margaret Cameron, at present a clerk in the Quartermaster General's office. She is a handsome brunette, with a well-rounded figure and pleasing manners. Miss Cameron is well known on the concert stage as a singer of Scottish songs, and has traveled extensively both in this country and in Europe. It is understood that the date of the wedding has not yet been fixed.

Secure your tickets and go and see "A Soap Bubble" at the opera house to-morrow night. This play was at Cincinnati last week and the Enquirer says: "Ed. J. Connelly as the 'Barber,' in the second act, scored a great hit. He is a funny comedian, quite original, and will some day make himself known. He is very amusing, and his songs capture the audience, and the rest of the company makes the barber-shop scene the great one of the play. Miss Dolly Foster is clever in acting and singing, and the other ladies of the company fill their parts to satisfaction. The modest trio was a taking feature, and, in fact, the entire performance was received with shouts of laughter and applause."

Railway News.
The Richmond and Allegheny Road is to be turned over to the C. & O., having been bought for it for \$5,000,000.

The German Pioneer Society of Ripley have chartered a special train for an excursion to Cincinnati Sunday, May 5th. The speed of railroad trains is restricted within three theoretical limits. (1) A physical limit of eighty miles an hour, beyond which it is found impossible for a train to hold the track. (2) An operating limit of sixty miles an hour, which practical experience has found trains can not run without much damage to life. (3) A commercial limit of thirty miles per hour, at which, all things considered, it is found most economical to run a train.—Exchange.

It is reported that the entire passenger service of the Cincinnati Division of the C. & O. will be reorganized on June 2nd, when a change of time is to be made. As now contemplated, it is said there will be three through trains leaving Cincinnati each day—the local at 7:35 a. m., the "fast line" at 11 and a solid vestibule train at 6:45. The latter will make the run through to Huntington in four hours and twenty minutes, and for that train, it is stated the first regular stop above Cincinnati will be Ashland; Maysville, South Portsmouth and Russell being flag stations. Another train will leave Huntington about 5 a. m., reaching Cincinnati at 9:45. There is nothing definite about the above.

Stock, Field and Farm:
Kidd, Edmonson & Co. sold 38 horses at Lexington Tuesday for \$6,206.

It is estimated that upon the prairies of Nebraska are now growing 605,000,000 trees planted within the past seventeen years under the "Timber Culture law."

Wm. Chancellor, of this county, bought this week at the Kidd-Edmonson sale at Lexington the grey mare, Lady F., by Alcald, dam by Grey Eagle. Price, \$160.

P. S. Anderson, of North Middletown, sold in Cincinnati, Thursday, fifty horseheads at 14 cents per pound—probably the best sale of Kentucky tobacco on the market this season.

Squire J. W. Thomas sold five hog-heads of tobacco in Cincinnati, last week, at an average of 10 cents, and lost a little money on the shipment. He is now out of the trade for this season. His observation is, that there will be a larger crop raised this year than last, and that next year will be a good time to buy.—Bourbon News.

For the nine months ending March 31, 1888, the United States exported breadstuffs to the value of \$101,995,977, and for the nine months ending March 31, 1889, we exported breadstuffs to the value of but \$91,744,947, though there was a shortage in Western Europe. This falling off is traceable to the development of a wheat belt in British India.—Exchange.

Pointer for Maysville Nurserymen.
Says the Ripley Bee: "It would be a good plan for some good fruit nursery about here, say that at Maysville or Manchester, to have an agent in Ripley, who would take orders and deliver the goods. There is a large and steady demand here every spring and fall for fruit-trees, and people naturally prefer to patronize local nurseries, from which they can expect fair treatment and reliable stock. We wonder that this chance is not taken advantage of to a better degree by those interested in the business. A good and permanent trade may easily be worked up here by the proper parties giving some attention to the matter."

Personal.
Rev. Russell Cecil and family returned home yesterday.
Miss Anna Cone has returned from Harrodsburg, where she spent some time with Miss Mollie Marion, the evangelist.
Miss Mary Armstrong returned home last Saturday afternoon, bringing with her her little cousin, Irma Lovel, of Maysville. She pleasantly entertained a party of friends Monday evening.—Ripley Bee.

Entitled to the Best.
All are entitled to the best that their money will buy, so every family should have, at once, a bottle of the best family remedy, Syrup of Figs, to clean the system when constive or bilious. For sale in 50 cent and \$1 bottles by all leading druggists.

Another Residence Burned.
Isaac Insko's residence, about three miles from Germantown, was totally destroyed by fire Tuesday. Most of the contents of the house were saved. The cause of the fire, as usual, was a defective flue. The loss is estimated at \$3,000, with no insurance.

The Owensboro Messenger says: "It is learned on very good authority that Mr. Carlisle has given Joe Blackburn his written obligation not to be a candidate for U. S. Senator, and that he has resolved to retire from politics after his present term in Congress and make his home and practice law at Washington."

THE THUNDERER.

Parnell Sues The London Times for £100,000 Damages.

AN AMERICAN ACQUITTED OF MURDER IN LONDON.

Efforts Being Made to Conceal the Real Condition of the Minds of the Austrian Emperor and Empress—The Gladstonians Elect Their Candidate in Rochester.

The Pope III.—Foreign.

LONDON, April 18.—Mr. Parnell has instituted a suit against The London Times for libel, claiming £100,000 pounds damages.

Luke Emerson a Free Man.

LONDON, April 18.—A verdict was given Tuesday in the case of Luke Emerson, of Bowling Green, Mo., who was charged with the murder of a man named Robinson on Oxford street in February last. Emerson was acquitted and was discharged from custody.

Emerson, who is a horse dealer, came to England last winter to buy horses. He displayed a considerable sum of money in a public house here one night, and upon leaving the place, was, he claims, set upon by two men, who attempted to rob him. He thereupon drew a revolver and fired two shots, killing Robinson, who was one of his assailants, and wounding the other. Emerson's plea was that he had simply acted in self-defense.

G'Brien's Word Disputed.

LONDON, April 18.—The report of the inspector appointed to inquire into the treatment of Mr. William O'Brien in Clonmel prison shows that the statements of the governor and wardens of the prison and that of Mr. O'Brien are diametrically opposite. Mr. O'Brien has declared that he fainted under the ordeal of resisting the enforcement of the governor's order to clothe him in the uniform of the prison, while the governor and the wardens assert that no undue violence was used upon any occasion. Mr. O'Brien declares that he not only fainted once but twice, and that the wardens were obliged to give him water to revive him. The wardens, on the other hand, deny this declaration in detail.

The Austrian Emperor and Empress.

LONDON, April 18.—Private letters from Vienna convey the intelligence, undoubtedly authentic, that the Austrian court is exerting every possible endeavor to conceal the actual condition of the emperor and empress. Both are represented to be in the last stages of mental dissolution and incidents are related which bear out the extreme probability of these assertions. The malady afflicting the imperial pair is, whenever it is thought safe to speak of it, ascribed to excess of grief at the death of the late Crown Prince Rudolph, but common belief credits the cause to circumstances very much more remote and of an entirely different character.

The Central Birmingham Election.

LONDON, April 18.—In Monday's election to choose a successor to the seat in the house of commons for the central division of Birmingham so long and honorably occupied by John Bright, the Tories go a man voted for the Unionist candidate, Mr. Albert Bright, in spite of repeated declarations on the part of the local leaders that the Conservatives would make no special effort to swell the majority in favor of the great man's son, for various and obvious reasons. These asseverations, however, were simply put out as a "bluff," for nobody seriously believed that the Tories would consent to the election of a Gladstonian by default.

Gladstonian Gain in Rochester.

LONDON, April 18.—An election was held in Rochester Tuesday to fill the parliamentary seat made vacant by the resignation of Col. Hughes-Hallett. The balloting resulted in favor of Mr. Huggess, the Gladstonian candidate, who polled 1,655 votes, against 1,580 for Mr. Davies, the Liberal-Unionist candidate. In the election in 1885 Col. Hughes-Hallett, who was the nominee of the Conservatives, received 1,692 votes, against 1,353 votes polled by Mr. F. F. Balsey, the candidate of the Home Rulers.

Irish Matters.

DUBLIN, April 18.—In consequence of the mediation of Sir Charles Russell, the tenants who were evicted from their homes on Col. Vandeleur's estates have accepted his offer to re-instate them on payment of a year's rent, less 20 per cent., all arrears being cancelled by such payment.

An Englishman named Harrison, a student of Balliol college, Oxford, has been arrested at Gweedore, Ireland, for supplying food for besieged tenants. He was handcuffed immediately upon being taken into custody.

Cholera Epidemic.

SAN FRANCISCO, April 18.—Information reaches this city from the Philippine islands that cholera is epidemic there. One thousand five hundred cases are reported, of which 1,000 may prove fatal.

The Pope's Health.

ROME, April 18.—The pope, who has been ill with a severe cold for the past few days, grows no better, and his cold is somewhat worse.

Wholesale Arrests.

PARIS, April 18.—La Presse says that warrants have been issued for the arrest of sixty members of the Boulangist party.

Foreign Notes.

Poisoned by Catfish.

CORYDON, Ind., April 18.—Mrs. Melvania was flayed by a catfish last Saturday and died of blood poisoning Tuesday.

SYLVESTER GRUBB

Shows a Remarkable Indifference to His Fate—Embraces Religion.

VINCENNES, Ind., April 18.—The scaffold for the execution of Sylvester Grubb, the murderer of Miss Gertrude Downey, at the Princeton fair last September, was put up Tuesday, within the scope of his hearing. It seemed to make no difference to him. Yesterday, under the spell of Mrs. W. N. Denny's prayer, he confessed to the religion of Christ. It astonished the public to hear that his indifference to his future had been broken through. The ministers of the city who called upon him received such rebuffs at his hands that they would not repeat their calls. A death-watch is placed over him day and night now, and no food even is given to him that does not go directly to him through the jailer's hands. It is feared he will commit self-murder. He sleeps and eats well, and is in better health now than when first cast into jail. He told Sheriff McDowell Tuesday that he wanted no petitions circulated for his reprieve.

Big Plate Glass Deal.

PITTSBURG, Pa., April 18.—One of the greatest plate glass deals ever made was effected here Tuesday. The Pittsburgh Plate Glass company bought from J. B. Ford & Sons the Forest Plate Glass works, paying therefore \$1,500,000. The purchase practically gives the Pittsburgh company a monopoly of the plate glass business of this country. The company already owned two immense factories, and this acquisition of the third gives them control of a combined production of 500,000 feet of plate glass per month. The three factories are all in the Allegheny Valley near Pittsburgh. Capt. J. B. Ford, who was the principal owner of the Forest City works, is also a heavy stockholder in the Pittsburgh company.

Boiler Manufacturers' Union.

PITTSBURG, April 18.—The American Boiler Manufacturers' union was organized here Tuesday by the election of the following officers: President, James Lapham, of Pittsburgh; first vice president, Philip Rohan, of St. Louis; secretary, A. T. Douthett, of Pittsburgh; treasurer, Richard Hammond, of Buffalo. Resolutions were adopted pledging the members of the union to encourage the use of only the best material in the manufacture of boilers and to secure the passage of laws making it a criminal offense to sell boilers of an inferior quality.

Almost Total Darkness.

NEW YORK, April 18.—As a result of the mayor's destruction of poles Broadway, between Fourteenth and Fifty-ninth streets, was in almost total darkness Tuesday night, greatly to the inconvenience of wayfarers. The clubs and theatre, lost some of their attractiveness, and the parks were gloomy and deserted.
